

the paratrooper test

- This is how we know when you're equipped
- If we were to drop any two of you in the middle of... say Wichita and come back in five years would we find a reproducing movement?
- Do the math:
 - If you had a normal reproductive rate of 0 for year 1, twins in year 2, 1 in year 3, 2 in year 4 and 1 there would be over 20 new teams in 5 years.
- Make a commitment to only engage in ministry that is reproducible
- What would stop you from making this commitment this year?

chapter 5:

devotion to fellowship

fellowship

Intentionally Intertwined Lives

Rhythms

Economic

Location

Syncing up on any one of these can lead to deeper fellowship than most people experience

welcome to acts 2... & matt 28!
